

AMBC Limited – Health & Safety Policy (Summary)

Our Commitment

We are committed to providing a safe and healthy working environment for all employees, subcontractors, visitors, and members of the public. Everyone has a role to play in keeping our sites safe.

Responsibilities

- Directors – overall responsibility for ensuring health & safety standards are met.
- Site Supervisors – implement safe systems of work on site and monitor daily practices.
- Operatives – follow site rules, use PPE correctly, and report hazards immediately.
- Health & Safety Consultant (James Nichol) – provides advice, creates H&S; documentation, and supports compliance.

Communication & Training

- Toolbox Talks – held regularly to update on safe working practices and highlight site-specific risks.
- Inductions – mandatory for all new starters before beginning work on site.
- Ongoing Training – provided where needed to ensure competence and compliance.

Key Site Rules

- Always use designated pedestrian walkways.
- Take care around vehicles and machinery at all times.
- Wear the correct PPE (hard hat, hi-vis, boots, eye/ear protection as required).
- Work safely with regard to noise, dust, and vibration.
- Keep work areas tidy – good housekeeping prevents accidents.
- Report unsafe conditions or near-misses immediately.

Monitoring & Review

Regular inspections and audits are carried out to ensure standards are maintained. The policy will be reviewed annually and updated as necessary.

■ Remember: Health & safety is everyone's responsibility. By working together, we keep ourselves and others safe.
